

Wi-Fi/LAN Kit 2.0

GoodWe's new generation of communication kit supports both Wi-Fi and LAN connectivity, providing users with flexible options for configuration and operation. The integrated Wi-Fi and LAN features ensure stable communication and faster response times. Additionally, the kit supports local configuration via Bluetooth, enhancing user convenience during setup and operation. With this advanced communication kit, data security during transmission is ensured, and the risk of data loss is minimized through support for breakpoint retransmission.
